

# About Me

## **GORETTI GOMEZ- Maldonado**

*I am not officially declared yet, but I plan on majoring in accounting and finance. After I graduate, I want to become an accountant. I like the idea of having a stable and professional career where I can use numbers, organization, and problem-solving every day, and actually build something long-term for myself.*

I would say I'm decent with using a computer, but I know I still have a lot to learn if I really want to do well in my future career. I mainly use Excel and Word for my classes, and at work I use a system called QFund, which helps with processing loans and processing check-cashing transactions. I also use different online platforms for my classes. I feel comfortable with basic technology, but I want to become much more proficient in Excel, especially since I know it's really important for accounting and finance.

I was born in Truckee, but have lived in Reno for 16 years. I chose the University of Nevada, Reno because it's close to home and I can get in-state tuition, which made the most sense for me and my family. I have two dogs, Lucy (in the front) and Bella (in the back), and they are very chaotic but also really fun. Some of my favorite hobbies are cooking, baking, and reading. I listen to all kinds of music, but my current favorite artists are Sienna Spiro, Bad Bunny, Billie Eilish, and RAYE. One of my favorite movies is Black Widow, and honestly, I love pretty much all Marvel movies. One of my biggest dreams is to graduate, get a good career, and be able to build a stable and successful life for myself. I really want to be independent and proud of what I've built in the future.
